A Man to Man Policy that Wins

THE Standard Oil Company was a
pioneer in the petroleum industry.
From the day of its organization to
the present moment the Company has
put forth every effort to make and sell
goods of the highest quality and always
has been satisfied to work on a small
profit. It has made money for its 4711
stockholders by reason of the volume of
business done.

In its dealings with the men and women
who make up its working organization,
the Standard Oil Company (Indiana) has
maintained a policy of fairness and liber-
ality which has held its men and inspired
them with the high ideals of service which
have been the key to its prosperity.

Today the 22,000 employees are working
as one man to increase production and
decrease the cost of manufacture and
distribution, for they know that their
every effort is appreciated in terms which
are substantial.

The working and living conditions of the
men and women employed by the Com-
pany always have been matters of major
interest to those in authority. Under the
plan now in process of organization, the
employees will be given an ever-increasing
voice in the management of their affairs.

The spirit of fairness which animates
both the Company and its employees, in
their relations with one another, has
again proved that all that is needed to
increase production and insure industrial
peace is to make it possible for the
employer and employee to sit down and
discuss all phases of their problems
man to man.

Norma Johnson and Mr. Henry Oh-
mer spent the week end at the Bailey
home.

Mrs. Webb and daughter, Vera,
spent Sunday at the Courter home.

Mrs. Glen Smith of Bay City at-
tended Dr. McLaughlin's funeral.

Why Colds are Dangerous

You are often told to "beware of a
cold," but why? We will tell you:
Every cold weakens the lungs, lowers
the vitality and paves the way for the
more serious diseases. People who
contract pneumonia first take cold.
The longer a cold hangs on, the great-
er the danger, especially from the
germ diseases, as a cold prepares the
system for the reception and develop-
ment of the germs of consumption,
diphtheria, scarlet fever, and whoop-
ing cough. The quicker you get rid
of your cold, the less the danger of
contracting one of these diseases.
Chamberlain's Cough Remedy has a
great reputation as a cure for colds
and can be depended upon. It is
pleasant to take.

LEGAL NOTICES

Court House, in the Village of Ithaca, in
said County, on the 21st day of February, A.
D. 1920.

Present: The Hon. Edward J. Moinet, Cir-
cuit Judge.

Hazel Winslow, Plaintiff, vs. Edward Wins-
low, Defendant.

In this cause it appearing by affidavit on
file, that the defendant, Edward Winslow, is
not a resident of this state, and it cannot
be ascertained in what state or country, the
Edward Winslow, now resides.

On motion of Charles H. Goggin, attorney
for plaintiff, it is ordered that the appear-
ance of the said Edward Winslow, be entered
in this cause within three months from the
date of this order; and that in case of his
appearance that he cause his answer to the
bill of complaint to be filed and a copy there-
of to be served upon the attorney for the
plaintiff within 15 days after service on him
or his attorney of his appearance and that
in default thereof that said bill be taken as
confessed by the said Edward Winslow.

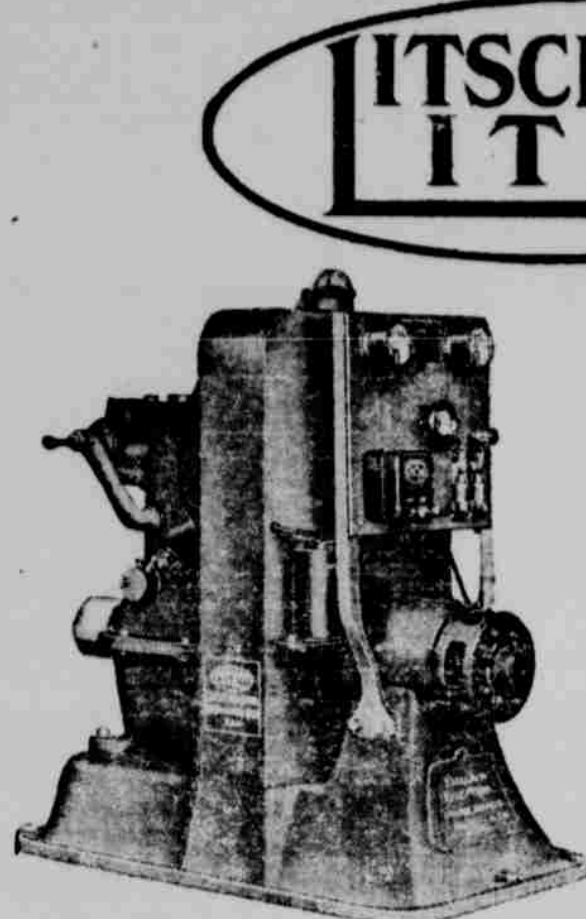

It is further ordered, that the said plaintiff
use this order to be published in the Alma
Record, a newspaper printed and circulated

LITSCHER
ITE

—is YOUR Farm
Equipped With

Combined Electric and Belt POWER?

Probably not, for, in spite of the fact that over Six
Million American farmers need and want electric light
for their homes, the farm light industry has not yet
been able to supply even 2% of the tremendous demand.

We make and sell the Litscher Lite—equipment
which has received national and foreign endorse-
ment on account of its greater adaptability to farm
power requirements. Our product is universally
used, well advertised and favorably known. We are
assured of a prominent position in an industry
which ten years from now will rank in size with
the other gas engine industries which twenty years
ago were in our present position.

To insure our dominance in the near future, all
we need is the production facilities which will
enable us to fill the multiplying demand.

Each Litscher Lite plant sells many other Litscher
Lite plants. The Litscher Lite has many advantages
over other equipment which attempts to imitate
its service; it operates electric lights, electric irons,
electric washing machines, electric vacuum clean-
ers and belt driven churns, cream separators, fan-
ning mills and pumps—all at the same time.

We are making our first public offer of Litscher Lite
stock. We afford careful investors an opportunity to share
in the success which our market, our production and
our management assures. The officers and directors of
our concern are men well known in Central Michigan
for their connections with live prospering concerns.

Write us for Detailed Information regarding this first public
Litscher Lite stock issue—grasp the privilege to become interested
in the farm lighting industry at this early stage of development.
